PROFESSIONAL SUMMARY

BSIT student and aspiring IT professional exploring web development, databases, troubleshooting, and practical software prototypes. Uses AI-assisted tools as part of the development workflow and builds foundational skills through hands-on projects, testing, and iteration.

TECHNICAL SKILLS

Web Development	HTML5, CSS3, JavaScript (currently learning)
Programming & Data	Python (beginner), PHP and MySQL (currently learning), Java with Eclipse (beginner)
Tools & Version Control	Git and GitHub (beginner), Visual Studio Code
AI, Systems & Hardware	AI-assisted prototyping (hands-on), Ollama/local LLMs (exploring), FastAPI (basic), Arduino and sensors (project exposure)

PROJECT EXPERIENCE

FixFlow - IT Troubleshooting Assistant
Deployed a troubleshooting/support prototype with searchable guides, support-ticket logging, and an organized knowledge base. Includes PWA support and an online PHP/TiDB-backed guide library; it is not a remote diagnostic tool.

Inventory Management
Academic inventory and sales system covering product and supplier records, stock movement, and dashboard summaries. Live demo: inventory-management-system-production-7080.up.railway.app

Acoustic Wave Firefighting Robot
Academic robotics prototype investigating low-frequency (about 35 Hz) acoustic-wave fire suppression, with heat detection and ultrasonic obstacle avoidance.

Cire - Personal AI Assistant Experiment
Explored a local assistant prototype using Python, FastAPI, Ollama/local models, and voice interaction.

Robot Battle Arena
Browser-based game prototype with a battle menu, hero garage, settings, and score progression.

EDUCATION

Torres Capitol College, Inc. **2026-2027**
Bachelor of Science in Information Technology (BSIT) - Student

CERTIFICATIONS & TRAINING

- DEVCON Bits of Light Roadshow - Frontend Forge workshop (July 2026)
- Code.org Hour of AI - Mix & Move with AI
- BSIT Seminar-Workshop 2026: Code + Communicate
- Digital Danger Zone: Protecting Yourself in the Age of Digital Deception

CORE STRENGTHS

Problem-solving | Teamwork | Communication | Adaptability | Time management | Willingness to learn

Project descriptions reflect current learning-stage experience; no formal employment experience is claimed.
